

## *Hattie's Garage Tour*

### *Saturday, March 5th*

Rob Burchill's impressive garage and restoration business go by the name "Hatties Garage". And on a lovely Saturday in March, we were given the opportunity to visit.

Many of us had been there before—This is a great place to visit, cars are always changing and it's a chance to see other Hudson Chapters and like minded car folk. In addition to the CBC, the Tri State Mountain Roads Chapter as well as a few members from other miscellaneous car clubs also visited on the same day we did.

Rob led a tour of the facilities and provided interesting facts about each car. Where it was made, how it was used, the times and how colors and styles differed during each period.

One of the stories concerned a model made in Australia. The parts used on the car were a mix—Hudson door handles, different headlights and so on. The car was very different looking now—apparently it was pretty battered and once

was used for kangaroo hunting.

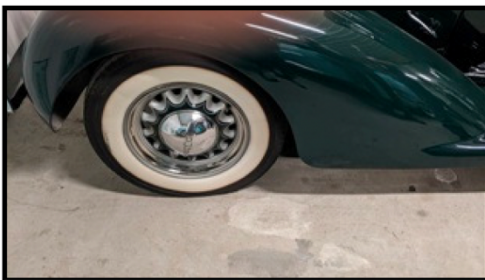

You had to be there!

*(Cont'd on Pg 5)*

(Cont'd from pg 1)

After the tour, we enjoyed a great pot luck luncheon that had everything you could want and some luscious specialties that were enjoyed in the large and comfy office. CBC attendees; Jon Battle, Rick Clark, Chip Gunn, Lynn and John Horn, Mary O'Malley and Brett and Carol Weare.

On this page: Just a few of the various cars at Hattie's Garage. The perfect comeback for anyone who has been told they have too many cars—when comparing, your collection probably starts to look quite small!
